

# Arch. Dipl.-Ing Dr.techn Martin Emmerer

Martin Emmerer is an Austrian architect. The new southern wing of the castle museum in Linz can be named one of his most recognised realised projects. He holds a doctorate degree in technical science, is visiting lecturer and guest critic at different Universities. After practicing under the name Hope of Glory aka HoG for 15 years he founded the Graz based Studio Emmerer, which sees itself as a creative laboratory that seeks proximity to different disciplines in the fields of architecture, information technology and art.
