

Arch. Dipl.-Ing Dr.techn Martin Emmerer

Martin Emmerer is an Austria based architect. The new southern wing of the castle museum in Linz can be named one of his most important realized projects. His passion for architecture is attended by his expertise in CAAD and programming, which led him to the foundation of Archilles Software, a company for experimental research and software development in the field of architecture. The firms' core product is Archilles Pro, a smart AI-driven collaborative design tool for architects. Martin Emmerer holds a doctorate degree in technical sciences; he is co-founder of the architecture collective Hope of Glory, visiting lecturer and guest critic at different Universities.
